#### About Us:

Asakura Robinson is a planning, urban design, and landscape architecture firm which strengthens environments and positively impacts communities through innovation, engagement, stewardship, and an integrated design process. Our employees are leaders in social and environmental design. As a firm, we strive to assist visionary clients to spur positive change. We focus on engaging communities in ever more diverse project contexts while maintaining a high level of creativity and collaboration in every endeavor.

Our studio is located in a growing urban neighborhood next to downtown, close to transit. As a small office that is joined together by our common beliefs and philosophy, we encourage our staff to be actively engaged with the community, serve on boards, committees, etc. With offices in Houston, Austin, New Orleans and Minneapolis, we emphasize collaboration between studios and disciplines, with a focus on industry best practices and innovation.

We are seeking landscape design students to join our team, who enjoy working in a fast-paced, creative environment. The landscape architecture intern is a full-time 12 to 16 week position working closely with Asakura Robinson's landscape architecture and urban design staff on a number of design projects.

Projects may include community engagement components and development of master plans and construction document packages. This position requires a high level of professional attitude as the intern will be engaging directly with clients and stakeholders on exciting and interesting projects in the Gulf Coast region.

Internships are paid. Stipend will be dependent on experience and will be negotiated following a successful application.

#### Skills Required:

- Pursuing Masters or Bachelor of Landscape Architecture or similar program, (experience with urban planning or urban design is a bonus, but not required)
- Excellent communication and organizational skills,
- Strong visual communication skills and graphic talent,
- Knowledge of AutoCAD, Adobe Creative Suite, Sketchup and rendering programs, GIS
- Ability to work well under pressure with tight deadlines
